STINE[®] 10EF23 BRAND

Maturity		10
SCN Peking	Brown Stem Rot Resistant	
Rps Gene 3a	Height Medium	

10EF23 brand is a semi-branching, consistently high-yielding soybean that brings Peking SCN resistance into the earlier parts of our portfolio. 10EF23 brand is strong against sudden death syndrome, but for best results, do not use on ground with potential iron deficiency chlorosis or Sclerotinia white mold. 10EF23 brand works well in wide-row management platforms to minimize lodging and the risk of Sclerotinia white mold.
